

PRACTICE MULTIPLICATION WITH TIC TAC TOE

In this activity, you child can practice multiplication while having fun. Multiplication practice doesn't have to be a chore!

Get a calculator and two pencils of different colors

Players take turns in selecting boxes. The player that answers correctly marks the box with his/her name and gets 100 points.

If the player answers three boxes in any row column or diagonal, he or she gets an additional 100 points.

Play until all boxes have been answered. The player that gets the most points wins.

PLAYER 1:	PLAYER 2:
TOTAL POINTS:	TOTAL POINTS:

4×5	10×5	100×80
11×6	2×3	5×12
120×3	3×30	3×7
